

AMENDMENTS TO THE SPECIFICATION

Please amend the specification of the present application as set forth below. Changes to the specification are shown by strikethrough or double brackets (for deleted matter) and underlining (for added matter).

On page 13, between lines 19 and 20, please insert the following new paragraph:

-- In general, the above-described data coordination layer 206 and the data abstraction layer 208 can be considered as an interfacing layer. This interfacing layer interfaces the business logic layer 204 with one or more resources 108 so that the execution models 230 may utilize the resources 108 when processing the client requests. --
